Text
Since personal circumstances can change over time, we would just like to check some important information.
What is [*[NAME]*'s / *[CNAME]*'s / *[ff_forname]*'s / *[your]*] legal marital status?

Interviewer Instruction
CODE FIRST THAT APPLIES

RECORD **LEGAL** MARITAL STATUS EVEN IF E.G. DIVORCED BUT COHABITING IN CURRENT HOUSEHOLD

Showcard
TBC

Options

1	Single and never married or never in a legally recognised Civil Partnership
2	Married
3	A Civil Partner in a legally recognised Civil Partnership
4	Separated but legally married
5	Divorced
6	Widowed

7	SPONTANEOUS: Separated from Civil Partner
8	SPONTANEOUS: A former Civil Partner, the Civil Partnership legally dissolved
9	SPONTANEOUS: A surviving Civil Partner (partner having died)

Help
The aim is to obtain legal marital status, irrespective of any de facto arrangement. The only qualification to this aim is that you should not probe the answer 'separated'. Should a respondent query the term, explain that it covers any person whose spouse is living elsewhere because of estrangement (whether the separation is legal or not). Ignore temporary absences, e.g. on oil rig.

A person whose spouse has been working away from home for over 6 months, e.g. on a contract overseas or in the armed forces, should still be coded as married and living with husband/wife if the separation is not permanent.

8	A former Civil Partner, the Civil Partnership legally dissolved
9	A surviving Civil Partner (partner having died)

Help
*This should be the **legal** marital status, for example if divorced but now living with someone else as a couple, the **legal** marital status should be 'divorced'. *If a partner is temporarily away but will be returning, (e.g. working away in the army or on an oil rig) the **legal** status should be recorded, for example 'married' rather than 'separated'.

Does your household own this accommodation outright, is it being bought with a mortgage, is it rented or does it come rent-free?

Options

1	Owned outright
2	Owned/being bought on mortgage

3	Shared ownership (part-owned part-rented)
4	Rented
5	Rent free
97	Other

Help
Shared ownership includes co-ownership and equity sharing schemes: a share in the property is being bought. The occupier may never become the sole owner of the property but will receive a cash sum on leaving the scheme. Where accommodation is owned or part-owned by ex-spouse or separated spouse treat as 'owned' (code 1). Do not count as rent-free cases where a rent would normally be paid but the whole amount is rebated (or paid direct to the landlord by the DWP through benefit payments). Code people who live in rent free accommodation owned by relatives as 'rent free'. If rent is paid for them by a relative or charity this should be recorded as a regular receipt in the finance grids.

Help
Direct Debits give a company permission to take money from your bank account on an agreed date. You tell your bank or building society to let an organisation take money from your account. The organisation can collect however much you owe them and so often vary from time to time. Sometimes fuel or electricity companies will agree with you to take a fixed amount regularly by direct debit though they are free to alter this amount. You will be notified in advance how much will be taken from your account.

Standing orders give the bank an instruction to pay an exact amount to another account regularly. You determine the amount regularly paid.

Which Council Tax band is this accommodation in? The bands run from Band A to Band H. *{if HHGRID.region = 1|3}* / The bands run from Band A to Band I. *{if HHGRID.region = 2}*

Help

This question refers to the Council Tax valuation bands, not the market value of the house. Please check the Council Tax bill if possible. If the property is rented and the Council Tax band is not known, record 'Don't know'. If the household accommodation is not valued separately e.g. a granny flat or a bedsit, record as 'Household accommodation not valued separately'.

Citizenship is membership in a country and carries with it rights to political participation. It is possible to have nationality without being a citizen (i.e. be legally subject to a state and entitled to its protection without having rights of political participation in it). Thus, you can have a citizenship from one country and be a national of another country

Thinking back to when you were 14 years old, was your father working at that time?

Options

1	Father working
2	Father not working
3	Father deceased
4	Father not living with respondent so don't know

Help
If at age 14 you were not living with your natural father, record the occupation(s) of your 'father figure' e.g. step or adopted father or guardian. If you were in institutional care (e.g. an orphanage or council home) still tell us about your father's occupations if he was alive, otherwise code appropriately if your father was deceased.

We would like to add records held by HM Revenue and Customs, or HMRC, to the answers you have given in this study. If you agree:

• We will send HMRC your name, address, sex and date of birth so that they can identify the records they have about you. The HMRC records contain information about your current and previous employment, your income, National Insurance contributions and tax credits.

• We will **not** send HMRC the answers you have given in this study.

• HMRC will send us your records. These will contain an anonymous identification number but **not** your name, address, sex or date of birth.

• We will add the HMRC records to the answers you have given in this study.

• We will make the **combined anonymous data** available for academic and policy **research purposes only**.

• Access to the data will be **restricted and controlled**, to make sure that researchers use the information responsibly and safely.

• This will not affect the way that you deal with HMRC in any way.

Please read this leaflet for further information.

Let me know if you have any questions.

Is there anyone living with you who is sick, disabled or elderly whom you look after or give special help to (for example, a sick, disabled or elderly relative, husband, wife or friend etc)?

Options

1	Yes
2	No

Help
Occasionally a person may not think of the care they provide as special because they either may have been looking after this person for a long time or because they view it as a natural obligation to look after a close relative, or because they think it normal to provide special care for the elderly. In some cases you may already know of someone in the household who is infirm or disabled. If you have reason to believe that someone within the household is receiving regular care because of age, infirmity or disability but this is not reported by the respondent you should ask 'And what about (NAME OF PERSON)? Do you look after them at all?' If the respondent does not agree, code answer given.

EXCLUDE HELP PROVIDED IN COURSE OF EMPLOYMENT

Options

1	Yes
2	No

Help
Exclude any care given in the course of employment (e.g. by social worker or home help) but include if they provide care unpaid outside working hours. Exclude work in drop-in centres, luncheon clubs or meals on wheels. Include any service provided including visiting, sitting with them, keeping company, taking out, checking whether or not they are alright, helping with bills etc, as well as help with housework, cooking and personal care (e.g. washing or dressing). Include only one-to -one caring so that if, for instance, someone helps with meals-on-wheels or driving people to hospital this, in itself, does not count since they may be seeing different people each day. If, on the other hand they are paired off with one specific elderly/disabled person, this would count. Include here cases where person cared for is in the same building as respondent but lives separately (e.g. a 'granny flat' or annexe). Some respondents will be caring for people as a voluntary worker rather than as a friend or relative. If caring for two parents living together, count each separately.

Can I just check, did you do any paid work **last week** - that is in the seven days ending last Sunday - either as an employee or self-employed?

Options

1	Yes
2	No

Help
Include:
*Employment for any number of hours, including Saturday jobs, and casual work, e.g. baby sitting, running mail-order clubs etc. NB Since some informants may not consider casual work to be serious work, please be prepared to probe those (e.g. housewives with dependent children, full-time students) to whom you feel this may apply.
*Anyone who was paid a wage or salary by an employer while attending an educational establishment.
*Someone working for any number of hours in a spouse's business as long as they were paid, i.e. received (or will receive) an amount of money in remuneration or a share of the profits.
*Someone working unpaid in a spouse's business provided they work 15 hours or more per week.
*Anyone else working in a friend's or relative's business, as long as he or she received (or will receive) an amount of money in remuneration or a share of the profits.
*Students on 'sandwich courses' currently with an employer or those on employer placements should be coded as employed only if they receive regular payment from the employer.

Student nurses: Nurses being trained under the PROJECT 2000 scheme which is mainly based in colleges outside hospitals should be regarded as full-time students. Unless they have other employment outside their PROJECT 2000 course they should be coded "No" at JBHAS and JBOFF. For student nurses always check if the nursing training course is part of PROJECT 2000 and proceed accordingly. If the respondent is unsure treat as employed.

Government Training Schemes: If a respondent was on such a scheme last week, they should be coded as employed if they are 'employer based'. This is defined as: 1) Last week they were with an employer or on a project providing work experience or practical training or 2) If they are normally 'employer based' but were away last week because of illness or for some other reason (including attending a college based course). If respondents are not normally 'employer based' that is they usually attend a college or other training centre, they should be coded "No" at JBHAS and JBOFF with the following exceptions: 1) those who

have employment outside the training scheme. Code here as employed and take details of this secondary employment. 2) those sent on training schemes by employers who continue to pay their wages or salaries. Treat as employed and code "Attending training course" at JBOFFY. Record details of their job with the employer who has seconded them to the training scheme.

Even though you weren't working did you have a job that you were away from last week?

Options

1	Yes
2	No
3	Waiting to take up job

Help
Include any persons who were absent because of holiday, strike, sickness, maternity leave, lay-off, or a similar reason, provided they have a job to return to with the same employer. Do not include those receiving redundancy payments who have no job to return to. Do not include people who have a job arranged but have not yet started work in it: such people should be coded "Waiting to take up job" at JBOFF. A job exists if there is a definite arrangement for work on a regular basis (i.e. every week or every month) whether this work is full-time or part-time.

Leaving aside your own personal intentions and circumstances, is your job...

Interviewer Instruction

Options

1	A permanent job
2	Or is there some way that it is not permanent?

Help
If respondent has more than one job, these questions should be answered with reference to their main job. The 'main job' is the highest paid. If equal earnings then it is the one with the longest hours. If a respondent is a seasonal worker who switches between jobs at different times of the year, then 'main job' is the one being done last week. Where a respondent changed jobs in the last week (that is in the seven days ending on the Sunday before interview) we require details of the job being done at the end of the week.

A permanent job is one which has no specific time limit even if a period of notice is required for dismissal.

Are you an employee or self-employed?

Options

1	Employee

Help
Where there is doubt, try to find out how they are described for tax and National Insurance purposes. For self-employed, tax is not normally deducted at source but paid directly to the Inland Revenue. People working as child minders or odd-jobbing etc are usually classified as self-employed. If someone is self employed and works under contract to an employer, he or she may be treated as an employee for tax purposes (e.g. in the construction industry). Treat such people as self-employed. For all directors and managers who say that they are self-employed, check whether they work for a limited company. If they do, code them as employees for tax and NI purposes. An employee working through an agency (e.g. secretary, nurse etc) may either be an employee of that agency (i.e. the agency pays part of their NI contributions) or an employee with each different employer they go to.

3	NOT manager or supervisor

Help
A manager may manage other employees through supervisors or directly, and may have a more general responsibility for policy or long term planning. Foremen and supervisors have day-to-day control over a group of workers whom they supervise directly, sometimes themselves doing some of the work they supervise. Job titles can be misleading (e.g. a 'playground supervisor' supervises children, not employees and so should be coded not a supervisor). A stores manager may be a store-keeper and not a manager or supervisor of employees.

This is the total number of employees at the workplace, not just the number employed within the particular section or department in which the respondent works. Include part time and shift workers. If a respondent works from a depot or office (e.g. a service engineer), base the answer on the number of people who work from that depot. People employed by employment agencies should answer these questions with reference to the place at which they are currently working (or last worked) rather than the agency. Where someone employed by an agency worked at several different workplaces in the course of a week the answer should refer to the place where he or she worked the greatest number of hours. Similarly, people working for sub contractors or merchandisers within a larger workplace should answer with reference to the larger workplace (for example, school meals staff should answer with respect to the school rather than the kitchens, and people working on a fish stall franchise within a supermarket should answer with respect to the supermarket).

Code 1: Income Support replaced Supplementary Benefit (sometimes called Social Security Benefit) and is often paid along with other benefits as a supplement. Any maintenance payments from a former or separated spouse or for child support which are paid through the DWP or other government agencies should not be included as Income Support.

Code 2: Job Seeker's Allowance replaced Unemployment Benefit in October 1996. Those receiving JSA are capable of work and available for work and actively seeking work and have a current Job Seeker's agreement with the Employment Service. Full-time students, those on temporary release from prison and those receiving maternity allowance or statutory maternity pay are not eligible for JSA. There are two types of JSA - Contribution-based and Income- based. The Contribution-based component is paid in the first 26 weeks of unemployment if enough NI contributions have been paid. The Income-based component is a

means-tested benefit (paid after 26 weeks for those who qualify for Contribution-based and pass the means-test) and is being replaced by Universal Credit.

Code 3: Child Benefit is a payment for those who are responsible for a child under 16 or over 16 and in relevant education or training. It is normally paid to the mother (unless there is none in the household) and should be shown as her income. Where it is paid into a joint bank account this should still be recorded as the mother's income.

Code 4: From October 2013 Universal Credit replaces Income Support, income-based Job Seeker's Allowance, income-related Employment Support Allowance, Housing Benefit, Child Tax Credit and Working Tax Credit.

Code 1: Incapacity Benefit replaced NI Sickness Benefit and Invalidity Benefit in April 1995.

Code 3: Severe Disablement Allowance is for people of working age who have not been able to work for at least 28 weeks but who cannot get Incapacity Benefit. Married women unable to perform household work may also receive it.

Code 4: Carer's Allowance is for people of working age who give up working to look after someone receiving Attendance Allowance or Disability Living Allowance.

Codes 5 & 7: The Disability Living Allowance replaced the Attendance Allowance for those under 66. For those over 66 it is still the Attendance Allowance. Where the person is under 16 the Allowance will normally be paid to the person responsible for them. In such cases it should be recorded as income on the questionnaire for the responsible adult for the child. Where someone is 16 or over this should be recorded on the person's own questionnaire.

Code 10: Sickness and Accident Insurance includes any payments to compensate for lost wages during time off work through sickness.

Code 12: Personal Independence Payment (PIP) started to replace Disability Living Allowance (DLA) from 8 April 2013 for people aged 16 to 64 with a long-term health condition or disability.

Code 2: Maternity Allowance applies only to women not eligible for Statutory Maternity Pay. Usually women receiving Maternity Allowance will be either self-employed or will have recently changed jobs.

Code 5: Working Tax Credit replaced Working Families Tax Credit and Disabled Person's Tax Credit in April 2003. It is paid to families with at least one dependent child or those with a disability who are working. In some cases it can be paid alongside JSA or income support for those not working. If the respondent qualifies for the childcare element of Working Tax Credit, this will always be paid with the Child Tax Credit, even if the respondent is not themselves in receipt of Working Tax Credit. It is, nevertheless, replaced by Universal Credit.

Code 6: Council Tax Reduction, formerly Council Tax Benefit, is usually credited to the council directly, so the benefit would show on a reduced tax bill. This can include reductions for being in receipt of other benefits but also discounts and exemptions under various circumstances including being a student, being a single person household, pensioners, or having someone in the household who is in receipt of social care. Please record the value of the reduction.

Code 8: Housing Benefit is benefit paid to help with housing costs, either by the DWP or the Local Authority. Include here only if it is paid direct to the respondent. It is being replaced by Universal Credit.

Code 3: For Trade Union/ Friendly Society Payments include all payments from such bodies here with the exception of Educational Grants and Sickness or Accident Insurance. Include Strike Pay.

Code 4: Maintenance or Alimony can be received by men or women. In most cases such payments come direct but they may also come via a solicitor, a court or the DWP. If it is paid by the DWP, check it has not been included in any Income Support already mentioned.

Codes 5 & 6: Payments from a family member not living with the respondent should not include payments for 'keep' from those living there although Rent from Boarders or Lodgers (not family members) living there should be included at code 6.

Missource. *Income source enumerated at previous wave but not current wave*

Source
UKHLS
Scripting Notes
MisSource is an indicator designed to identify benefit and unearned income sources that were not recorded at the current wave but were recorded at the previous wave. A flag is created for each unearned income source if it has been coded as received in the current interview. This flag is then compared with the ff variable for that income source.
If enumerated at wave t-1 and enumerated at wave t then MisSource = 0.
If not enumerated at wave t-1 and not enumerated at wave t then MisSource = 0.
If not enumerated at wave t-1 but enumerated at wave t then MisSource = 0.
If enumerated at wave t-1 but not at wave t then MisSource = 1.

This calculation becomes more complicated once Universal Credit has been introduced, because the answer at the current wave will be Universal Credit and at the previous wave it will be something else (but mean the same thing). Hence this extra code....

If lstrtdate after 31/03/2013, code MisSource = 0 if claims Personal Independence Payment (BenDis = 12) and at t-1 respondent claims Disability Living Allowance (ff_bentype10).
If lstrtdate after 30/09/2013, code MisSource = 0 if claims Universal Credit (BenBase = 4) and at t-1 respondent had claimed Income Support (ff_bentype15), Job Seeker's Allowance (ff_bentype16), Employment Support Allowance (ff_bentype33), Housing Benefit (ff_bentype22), Rent Rebate (ff_bentype31), Child Tax Credit (ff_bentype19) or Working Tax Credit (ff_bentype20).

We would like to add records held by HM Revenue and Customs, or HMRC, to the answers you have given in this study. If you agree:

• We will send HMRC your name, address, sex and date of birth so that they can identify the records they have about you. The HMRC records contain information about your current and previous employment, your income, National Insurance contributions and tax credits.

• We will **not** send HMRC the answers you have given in this study.

• HMRC will send us your records. These will contain an anonymous identification number but **not** your name, address, sex or date of birth.

• We will add the HMRC records to the answers you have given in this study.

• We will make the **combined anonymous data** available for academic and policy **research purposes** only.

• Access to the data will be **restricted and controlled**, to make sure that researchers use the information responsibly and safely.

• This will not affect the way that you deal with HMRC in any way.

Please read this leaflet for further information.

Text
We are interested in how people are getting on these days. To help us with this, we would like you to take part in an additional task. We would like to collect more information about the patterns of spending in British households across a month.

This information will be valuable to researchers who are looking at how people manage their spending, and how this differs across households. It will also be used to see how British households are managing in the current economic climate, and how changes in society and the economy effect people's behaviour.

This task may also be useful to you. You will be able to see how much you've reported so far.

To do this, we would like you to download an app onto your smartphone or tablet, and use this every day to tell us how much you spend. We also ask you to use the app to tell us of any direct debits or standing orders that come out of your bank account during the month – you will only need to do this once. The information you give us will be kept completely confidential, and your personal details will never be made available to researchers.

If you participate in this additional task, we will give you 50p for each day that you use the app to let us know about your purchases that day. When you have completed the section about direct debits, you will be awarded another £1. If you use the app each day for 31 days, you will get a bonus of £10. The gift-card with the reward will be sent to you a couple of weeks after the end of the 31-day period.

Sometimes people move homes and forget to let us know. It's really helpful to have the contact details of someone such as a relative or friend who would be able to let us know how to contact you. So it would be great if you could give us the details of someone who could simply put us back in touch with you.

Last year, you told us that *[ff_ctname]* *[, who is your [ff_ctrel], {if ff_ctrel NOT DK|REF|MIS}]* would know where to find you if you had moved. Are the following details correct?

Please select any details that are INCORRECT. If you would like to change the contact person, please select all details as incorrect and update them at the next screen. *{if WEB}*

THE DETAILS DO NOT GET PASSED TO ANYONE ELSE AND WILL BE STORED SECURELY. THE PERSON NOMINATED WILL ONLY BE ASKED HOW TO CONTACT THE RESPONDENT SO THAT THEY CAN CONTINUE TO BE PART OF THE SURVEY

YOU WILL BE ASKED TO ENTER ANY INFORMATION THAT IS MISSING FOR THIS STABLE CONTACT. IF NONE IS AVAILABLE, CODE DON'T KNOW AT THE FOLLOWING QUESTIONS.

Sometimes people move homes and forget to let us know. It's really helpful to have the contact details of someone such as a relative or friend who would be able to let us know how to contact you. So it would be great if you could give us the details of someone who could simply put us back in touch with you. *{if ff_ctname = MIS|DK|REF}*

Is there anyone living with *[NAME]* who is sick, disabled or elderly whom *[NAME]* looks after or gives special help to (for example, a sick, disabled or elderly relative/husband/wife/friend etc)?

Options

Occasionally a person may not think of the care they provide as special because they either may have been looking after this person for a long time or because they view it as a natural obligation to look after a close relative, or because they think it normal to povide special care for the elderly. In some cases you may already know of someone in the household who is infirm or disabled. If you have reason to believe that someone within the household is receiving regular care because of age, infirmity or disability but this is not reported by the respondent you should ask 'And what about (NAME OF PERSON)? Did *[NAME]* do any paid work last week - that is in the seven days ending last Sunday - either as an employee or self-employed?

Options

1	Yes
2	No

Help
Include:
*Employment for any number of hours, including Saturday jobs, and casual work, e.g. baby sitting, running mail-order clubs etc. NB Since some informants may not consider casual work to be serious work, please be prepared to probe those (e.g. housewives with dependent children, full-time students) to whom you feel this may apply.
*Anyone who was paid a wage or salary by an employer while attending an educational establishment.
*Someone working for any number of hours in a spouse's business as long as they were paid, i.e. received (or will receive) an amount of money in remuneration or a share of the profits.
*Someone working unpaid in a spouse's business provided they work 15 hours or more per week.
*Anyone else working in a friend's or relative's business, as long as he or she received (or will receive) an amount of money in remuneration or a share of the profits.
*Students on 'sandwich courses' currently with an employer or those on employer placements should be coded as employed only if they receive regular payment from the employer.

Student nurses: Nurses being trained under the PROJECT 2000 scheme which is mainly based in colleges outside hospitals should be regarded as full-time students. Unless they have other employment outside their PROJECT 2000 course they should be coded 2 at JBHAS and JBOFF. For student nurses always check if the nursing training course is part of PROJECT 2000 and proceed accordingly. If the respondent is unsure treat as employed.

Government Training Schemes: If a respondent was on such a scheme last week, they should be coded as employed if they are 'employer based'. This is defined as: 1) Last week they were with an employer or on a project providing work experience or practical training or 2) If they are normally 'employer based' but were away last week because of illness or for some other reason (including attending a college based course). If respondents are not normally 'employer based' that is they usually attend a college or other training centre, they should be coded 2 at JBHAS and JBOFF with the following exceptions: 1) those who have employment outside the training scheme. Code here as employed and take details of this secondary employment. 2) those sent on training schemes by employers who continue to pay their wages or salaries. Treat as employed and code 4 at JBOFFY. Record details of their job with the employer who has seconded them to the training scheme.

Even though *[NAME]* wasn't working did she/he have a job that she/he was away from last week?

Options

1	Yes
2	No
3	Waiting to take up job

Help
Include any persons who were absent because of holiday, strike, sickness, maternity leave, lay-off, or a similar reason, provided they have a job to return to with the same employer. Do not include those receiving redundancy payments who have no job to return to. Do not include people who have a job arranged but have not yet started work in it: such people should be coded 3 at JBOFF. A job exists if there is a definite arrangement for work on a regular basis (i.e. every week or every month) whether this work is full-time or part-time

Maternity leave: only women who are on the special period of maternity leave allowed either by law or their contract should be included here. Any other leave taken for reasons of child bearing or child rearing should be coded 7. Any leave taken for pregnancy related sickness not covered by maternity leave should be coded 3. Is *[NAME]* an employee or self-employed?

Options

1	Employee
2	Self-employed

Help
Where there is doubt, try to find out how they are described for tax and National Insurance purposes. For self-employed, tax is not normally deducted at source but paid directly to the Inland Revenue. People working as child minders or odd-jobbing etc are usually classified as self-employed. If someone is self employed and works under contract to an employer, he or she may be treated as an employee for tax purposes (e.g. in the construction industry). Treat such people as self-employed. For all directors and managers who say that they are self-employed, check whether they work for a limited company. If they do, code them as employees for tax and NI purposes. An employee working through an agency (e.g. secretary, nurse etc) may either be an employee of that agency (i.e. the agency pays part of their NI contributions) or an employee with each different employer they go to.

Help
A manager may manage other employees through supervisors or directly, and may have a more general responsibility for policy or long term planning. Foremen and supervisors have day-to-day control over a group of workers whom they supervise directly, sometimes themselves doing some of the work they supervise. Job titles can be misleading (e.g. a 'playground supervisor' supervises children, not employees and so should be coded not a supervisor).
